

NEWS OF INTEREST GATHERED HERE AND THERE IN THE STATE

ST. JOHNS PREPARING FOR BIG 4TH OF JULY

The big part of the celebration for July 4, has been accomplished, that is the \$2,000 necessary to finance the celebration has been pledged.

Among the features will be an auto road race from Gallup to St. Johns. Many people do not know it, but the work that has been planned on this road will make it a very good cross-country racing road by July 4th.

The boys say they will get that aeroplane and we guess they mean it.

Arrangements have been made to put the two mile race track west of town in shape. Racing men claim this is the best track in the state, and judging from the number of entries we have already heard from, there will be racing for every one.

C. C. Naegle and Art Saunders have

been selected on the Wild West committee and you know what that means.

Two inquiries have already been received from wealthy Los Angeles people. They will come, not to see the aeroplane nor the auto races, but a contest of the world's best born and raised cowboys. See them rope and ride as they learned to do on the prairie.

On soldiers and sailors day everything will be free to the boys and special arrangements will be made to welcome them.—St. Johns Herald.

BOOZE AND FLOWERS FOR PATIENTS AT WHIPPLE

Five crates of cut flowers and five barrels of luscious liquor arrived in Prescott today for patients at Whipple barracks.

The arrival of this shipment, however, does NOT mean that there is to be a hilarious time at the hospital, with the perfume of flowers mingling with the aroma of rare old alcohol.

The liquor and the flowers came from two different sources and for far different purposes. The cut flowers are the gift of the Women's club of Phoenix to the boys at Whipple, and will be distributed at the hospital under the supervision of the Yavapai county chamber of commerce.

As for the bouquet contained in the five barrels of liquor, that will be distributed (a spoonful at a time) by members of the hospital's medical staff, at such intervals as may be required to help the patients along on the road to recovery. Local liquor experts who claim to be able to detect the kind and quality of alcoholic beverages contained in any given barrel by simply sniffing the aroma emanating from between the staves, are of the opinion that at least part of the liquor shipment is pure grain alcohol and may be used for a number of different purposes. The five barrels were shipped to Whipple from the government supply base at Perryville, Md.

ORCHESTRA MAIDS SEEK EXCITEMENT IN AGUA PRIETA; LAND IN JAIL

A dozen or more pretty maids with a longing for excitement found plenty of it in Agua Prieta Monday night, at a cost of \$10 and considerable discomfort. The girls were members of the Ladies' Columbia Symphony orchestra, who crossed the line with several American Legion men after the concert at the Grand theatre. After giving Jim Joe's thirst emporium the "once over" the girls and their escorts left for the Black Cat and were arrested by a police officer who charged them with "being on the streets of Agua Prieta after midnight." Whether this is a new ordinance or one which never has been enforced, Douglas police were unable to say.

The girls and men with them were told that the violation was only technical and that "\$10 would fix it up all right."—Douglas Dispatch.

A new economy in motor car operation

The manufacturer of your automobile recommends, in the Instruction Book for your car, that the crankcase be drained out and flushed and then refilled with fresh oil at regular intervals.

This is necessary because engine operation causes a steady accumulation of road dust, carbon, fine metal particles and other impurities in the crankcase oil. This gritty oil circulates through your engine, impairs its performance and ultimately leads to rapid depreciation and repairs.

But cleaning the crankcase is a job generally disliked and neglected.

To meet this need, Modern Crankcase Cleaning Service has been established by first-class garages and other dealers co-operating with the Standard Oil Company. These garages and dealers use Calol Flushing Oil—the scientific agent that cleans out old oil, dirt, grit and other impurities, and does not impair the lubricating efficiency of fresh oil used. The cleaned crankcase is refilled with the correct grade of Zerolene.

Look for the garage or dealer displaying the sign shown below—it means "Better operation and longer engine life."

LILLIAN GISH in THE THRILLING ICE SCENE in "WAY DOWN EAST"

The sale of seat reservations for the engagement of D. W. Griffith's wonder spectacle, "Way Down East," opens at the box office of the Orpheum theater this morning.

The local presentations begin Wednesday matinee, April 27th.

Basically "Way Down East" is a picturization of that delightful story of New England rural life which Lotie Blair Parker and Jos. R. Grismer made so familiar upon the American

NEW MEMBERS LABOR COMMISSION APPOINTED

Appointment of L. L. Henry, of Globe; Joseph Lord, of Phoenix, and Herbert H. Hodgson, of Morenci, to be members of the industrial commission of Arizona, has been announced by Governor Campbell. Mr. Henry was appointed for the six year term, Mr. Lord for the four-year term and, Mr. Hodgson for the two years. In each case the term of office begins with the date upon which the act creating the industrial commission was approved, March 12, 1921.

The new industrial commission met for the purpose of electing a chairman and secretary. Quarters for the commission will be provided in the house chamber on the third floor of the capitol.

Under the act passed by the last legislature creating the commission, each member will receive a salary of \$4,000 a year. They will act as mediators in labor disputes; supervise and regulate employment; have concurrent jurisdiction in the enforcement of all labor laws, and regulate insurance companies engaged in business relating to the workmen's compensation.

SNOWFLAKE POSTOFFICE MOVES UP A NOTCH

Postmaster John Murray has received notice that the Snowflake postoffice has reached the limit in stamp sales per year required to make it a third-class office, and that hereafter it will be rated as such. However, if it should ever happen to fall below the required mark it would again go in the fourth class column. This advance will increase Postmaster Murray's salary to an amount worth while and also permits the installing of a deputy or assistant postmaster to be paid by the government. There is strong inclination to make Snowflake the distributing office for towns south of here and also for Apache county and if this becomes a reality two clerks probably will be needed to care for the business. Anyway, our little city is to be congratulated in having a post office that now ranks among the big ones.—Snowflake Herald.

WILLIAM BRINK MEETS TRAGIC DEATH IN WATERS OF THE COLORADO RIVER

William Brink met a tragic death in the Colorado river, near Gregg's ferry, on Friday, April 1. The unfortunate man had gone to the river with some other cowboys to receive a consignment of cattle for the Naquinta Cattle company, successor to the Clay Springs Cattle company, and in attempting to cross the river at the rapids was caught in a swirl and carried away. The other men, on both sides of the river, stood helplessly by while the poor fellow was carried down to his death. The horse that Brink was riding at first refused to enter the river, but he finally went in and when but a short distance from the bank reared up and fell over backward. The horse disappeared and was never seen again, while Brink came to the surface once and then disappeared.—Kingman Miner.

HOLD CHINAMAN AND WOMAN ON DRUG CHARGES

Charged with having narcotic unlawfully in their possession and with making illicit use of the same, a Chinaman, said to be called Tom Kee and a white woman have been arrested and lodged in the county jail at Prescott.

Deputy sheriffs found Kee and the woman under the influence of some drug. The man was said to have in his possession a quantity of opium and cocaine.

Officials have a theory that the supply of drugs was part of that which has been coming in over the Mexican border and which, through "underground" channels is distributed over the state.

"WESTERN RILEY" AT CHAUTAUQUA

Richard P. Campbell is Delightful Poet and Reader.

Richard Posey Campbell, author of "Just Common Folks" and "A Daughter of the Rogues," two delightful books of verse, is often called "The Western James Whitcomb Riley." He has written about the folks next door

—the everyday people, just as Riley did, and much of his verse has the same deep heart appeal as that of the Hoosier poet.

He comes to Chautauqua on the second afternoon with readings in character from his own works. An hour spent with him will be an hour long remembered.

FOUR PERSONS INJURED IN MESA HOTEL FIRE

Four people may die as a result of injuries received in a fire at Mesa at 3:30 o'clock Friday morning, when the Alhambra hotel, one of Mesa's leading hotels, was totally destroyed.

All the guests of the place were asleep at the time the flames broke out and with the exception of four men were able to flee to places of safety before the flames made headway.

The four injured guests had narrow escapes from cremation. One of the four was afraid to jump from the second floor of the hotel, and was rescued by the fire-fighters after much difficulty.

Cigarettes in frame buildings in the rear of the hotel are believed to have started the fire. The hotel was a two-story brick, with frame additions in the rear.

Brick walls and a portion of the front are all that is left of the hotel, the flames having badly gutted the structure.

SANTA FE CALLS CONFER- ENCE ON CUT IN WAGES

Notice of a conference between railroad officials and employees to consider reductions in wages of 14 classes other than train crews was posted at the Santa Fe railroad headquarters at Prescott. The notice was signed by five roads, subsidiaries of the Atchison, Topeka and Santa Fe.

The conference, according to the notice, will be held in Topeka, Kan., between April 26 and May 7. A reduction of 20 per cent is proposed in the notice because of alleged decrease in the cost of living and also to agree with wages said to be paid for similar work in other industries.

THE SUN office does JOB PRINTING

WHISKY AND PRINTERS INK

A southwestern farmer gave a printing office an order for sale bills. The job was promised for the last day before the big drought started. The printer decided to take a few parting drinks. He took several. Then he set and ran off the bills.

The farmer called for the bills, paid for them, took them home and the next day started to put them up. Here are some of the items he read when he came down to the list of articles offered for sale: Twenty-five cows, broke to work; 41 head of cultivators, coming in soon; 120 rod of canvas belting, better than new; Poland China bobsled, due to farrow in April; 14 head of chickens, with grass seed attachment, in good working order; spraying outfit, can be ridden by the children; many other articles too numerous to mention. Should lay in a good

supply before the balance goes up; articles under \$10, cash, as the railways will not except C. O. D. shipments.

THIEVES LOOT ASH FORK GARAGE

Thieves broke into the Dickerson garage at Ash Fork last Friday night and carried away some 30 or 35 cord tires, according to word received by Sheriff Warren G. Davis.

Up to a late hour no clue to the identity or whereabouts of the tire thieves had been obtained. It is the sheriff's belief, however, that the theft was the work of several men, each of them driving a car and each of them taking away a part of the loot.—Prescott Courier.

Try a Sun want ad., they bring results.

Special Sunday Chicken Dinner

Bring your family on Sunday and enjoy our SPECIAL COURSE Dinner, from 12 o'clock on.

Prices range from 75c to \$1.00

The White House Cafe
